**Y**our mind is your greatest resource. Tapping into its unlimited potential can help you develop genius ability. The Silva Method of Meditation has been validated scientifically. It teaches skills of physical and mental relaxation, coupled with visualization. With these tools, you can create positive results in your life.

Award-winning Silva instructor Fr. Justin will explain how this program can help you achieve goals, no matter how difficult they may seem. In the same way that you plant seeds and then wait for the flower or tree to sprout, so too can you plant ideas in your mind and, in time, they become reality. You can take control of your life by taking control of your mind

- . Recognize and control stress
- . Create and maintain a positive attitude
- . Actualize potential talent
- . Improve memory and concentration
- . Develop creativity and intuition

### A Personal Note from Fr. Justin

Dear Friend:

Our world is rapidly changing and so is our perception of it. Scientists, theologians, medical professionals, educators, and even philosophers understand that our world is basically Energy. Films like *What the Bleep Do We Know* and *The Secret* demonstrate that we are Energy immersed in Universal Energy.

The Silva Method is a **meditation** program designed to help any human being tap into this Unlimited Energy. **It is the premier program of its kind.** Its techniques are proven to give you specific results (and with a money-back guarantee). Do you want to tap into the Unlimited Energy within you? If so, here is your opportunity to be a part of this world-wide movement!

Sincerely in the love of God and St. Francis.
